

VACANCY ANNOUNCEMENT

Issued on 17 November 2021

Functional title:	Voluntary Local Review Data Expert
Duty station of assignment:	Prishtina/Pristina with travel to the selected Municipality
Contract type:	Consultancy Assignment (IC)
Duration of assignment:	6 working months
Closing date for applications:	2 December 2021

BACKGROUND

The United Nations Human Settlements Programme (UN-Habitat) is the lead United Nations agency for cities and human settlements. The agency is mandated by the UN General Assembly to promote socially and environmentally sustainable towns and cities with the goal of providing adequate shelter for all and sustainable development. UN-Habitat, being the focal point for all urbanization and human settlement matters within the UN system, has a role in delivering the 2030 Sustainable Development Agenda, adopted by Member States in 2015, specifically goal 11: make cities and human settlements inclusive, safe, resilient and sustainable. UN-Habitat promotes good local governance, urban environmental action, access to affordable housing, sustainable human settlements development and inclusive spatial planning in Kosovo¹ since 1999.

Three years after the global adoption of the 2030 Agenda for Sustainable Development Goal the Assembly of Kosovo adopted the Resolution in 2018. The resolution endorses the Sustainable Developments Goals and Agenda 2030 finds Kosovo committed to the global goals. Kosovo's aspiration to the EU integration process and the 2030 Agenda will create a context for structured and concise management of all policies – national and local level – leading to an accelerated EU integration criteria fulfilment through successful implementation of the SDGs and contributing to better standards for everyone living in Kosovo.

Kosovo has committed to the Sustainable Development Goals and contributed to shaping this new global agenda. Its commitment began with extensive public consultations conducted with the support of the United Nations Kosovo Team from 2012 to 2015, developed the United Nations Sustainable Development Cooperation Framework 2021-2025 for Kosovo and continued with an ambitious plan for the integration and implementation of the SDGs, in line with the National Development Strategy 2016-2021, the Stabilization and Association Agreement (SAA), and the European Reform Agenda (ERA).

The United Nations Sustainable Development Cooperation Framework 2021-2025 (Cooperation Framework) articulates the United Nations development system's cooperation with Kosovo* institutions and partners over the next five years. Underpinned by solid analysis of key social, economic and environmental challenges, the Cooperation Framework aims to support progress towards sustainable development in Kosovo* anchored around the Sustainable Development Goals (SDGs) in line with government and regional integration priorities. The process leading to the elaboration of the Cooperation Framework entailed extensive consultations with key stakeholders among government institutions, civil society organizations and international community in order to identify areas with the greatest potential for transformative and inclusive development, taking full advantage of the United Nation's comparative advantage. Consequently, five catalytic development solutions for 2030 materialized, aligned with key

areas of the National Development Strategy 2021-2030 and the Government Programme 2020-2030, as outlined below:

1. Accountable governance
2. Inclusive and non-discriminatory social policies and services
3. Resilient, sustainable and inclusive economic development
4. Social cohesion
5. Cross-cutting: Increased gender equality and right holders

To further support the measure progress in Kosovo towards SDGs and their targets and indicators, the United Nations Kosovo Team conducted a Rapid Integrated Assessment of alignment of strategic documents with the SDG. In line with Kosovo's efforts to mainstream the SDG agenda at central and local level, and following discussions with the relevant institutions and stakeholders, the recommendations were grouped in three major categories:

1. Advocacy and coordination mechanisms for SDG implementation and progress monitoring in line with the SDG Resolution endorsed in January 2018;
2. Alignment and integration of the SDGs within newly developed strategies and policies at central and local level; and;
3. Advancing efforts to increase data availability in line with the international methodology for tracking progress towards the SDGs

Implementation of these priorities will be guided by the overarching principles of leaving no one behind (LNOB); a human rights-based approach; gender equality and women's empowerment; (UNKT) will be focused on the provision of the policy advise, technical assistance, capacity development, leveraging partnerships and resources, social mobilization, brokering knowledge, and piloting and scaling up innovations based on evidence.

UN-Habitat's Strategic Plan for the years 2020–2023 reinforces UN-Habitat's position as the global centre of excellence on sustainable urban development, offering solutions that help seize the opportunities presented by urbanisation, while bringing about transformational change for the benefit of millions of people, ensuring that no one and no place is left behind. The Strategic Plan lays out a recalibrated vision and mission, and a sharpened focus. UN-Habitat proposes to serve Member States, sub-national and local governments, and other key urban actors in the pursuit of four mutually reinforcing and integrated domains of change:

1. Reduced poverty and spatial inequality in urban and rural communities;
2. Enhanced shared prosperity of cities and regions;
3. Strengthened climate action and improved urban environment; and
4. Effective urban crisis prevention and response.

To contribute to UN-Habitat's mandate to ensure a "better quality of life for all in an urbanizing world" and help the agency to deliver on its Strategic Plan, UN-Habitat Kosovo Office in active partnership with the United Nations Kosovo Team will develop Kosovo's first Voluntary Local Review Report as the first step of a process to localize the 2030 Agenda in Kosovo. The Voluntary Local Review opens avenues for local government in Kosovo to understand better their current standing in achieving the 2030 Agenda, identifies policy gaps needing attention, and giving them the opportunity to join the global conversation on sustainable development.

The Voluntary Local Review Report: VLRs analyze the SDGs for a specific local context, thus, a very important monitoring tool for their implementation at city or regional level. The process of SDGs localization that starts with the VLR allows local authorities to identify their priorities and territorial specificities. When it combines a careful analysis of indicators with a participatory process that involves citizen and local stakeholders and coherence analysis of existing policies as a basis for planning and policy design, it also becomes a strategic planning tool.

To support the implementation of this project, UN-Habitat Kosovo is seeking a Voluntary Local Review Data Expert, who will fulfill the following duties and responsibilities under the direct supervision of the UN-Habitat Kosovo *Head of Office* and *Project Coordinator*.

PURPOSE OF THE ASSIGNMENT

The general purpose of the Data Expert is to provide guidance on developing the SDG indicator framework, project master datasets, identify key data providers/sources, and validation of proxy indicators and indicator adjustments to be used by the VLR in the chosen municipality. The Data Expert will work closely with national, sub-national and local government and other entities in terms of all required assistance need to provide with the support of the VLR team to ensure deliverables are achieved according to workplan timeframe.

SKILL SETS REQUIRED

Selected skills will be required, among which: interpreting data, analyzing results using statistical techniques; survey research; statistical analysis: data processing and data analysis software; principles of sustainable development; local governance stakeholder and civil society participation; ability to collect, record and interpret data; knowledge of relevant central and local planning legislation in Kosovo.

MAIN TASKS

Under the general guidance and direct supervision of the UN-Habitat Head of Office and VLR Project Coordinator and in close relation with the UN-Habitat Cartographic Specialist, the Data Expert will be responsible for performing the following main tasks:

- 1) Responsible for providing guidance on developing the SDG indicator framework and project master dataset;
- 2) Responsible to identify key data providers/sources, and validation of proxy indicators and indicator adjustments to be used;
- 3) Responsible for data collection at sub-national and local level, harmonization and part of SDG analysis for preparation of three planned SDG discussion papers;
- 4) Responsible to conduct the survey according to the key thematic issues, targeted SDG indicators and targeted communities-inclusion of the targeted groups;
- 5) Liaise regularly with central level institutions including National Statistical Agency and others;
- 6) Contribute to knowledge-management, communication and outreach activities for the VLR;
- 7) Provide monthly progress reports and inputs to progress reports for approval from the UN-Habitat Prishtina/ Pristina office;
- 8) Perform any other functions and tasks which may be required by the nature of the projects' activities; and
- 9) Maintain confidentiality of the project findings and outputs at all times and handover the data to UN-Habitat when the project is finished.

DELIVERABLES AND IMPLEMENTATION SCHEDULE

The assignment is expected to be for 6 working months. During the assignment, the data expert should provide/submit:

#	TASKS	DELIVERABLES	DURATION
1.	Develop the initial preparatory documents for conducting VLR data exercise	Draft Methodology and Baseline Report for VLR submitted Key data sources identified	1 w/months
2.	Develop and implement survey tools on key thematic issues, targeted SDG indicators and communities	The collected data in form of a database including information according to targeted SDG indicators	2 w/months

3.	Develop the first draft of the data report including the progress report	First draft of data report with submitted for comments	1 w/months
4.	Incorporate comments and produce the second draft of the data report	Second draft of data report with integrated comments submitted for final comments	1 w/months
5.	Include the final comments and produce the final draft of the data report	Final data report and progress report	1 w/months

The Consultant will be responsible for:

- Conducting and delivering activities and outputs as outlined above
- Demonstrating professional and ethical standards in conducting the tasks
- Performing the tasks in line with the allocated time-frame
- Informing UN-Habitat management about progress of the assignment
- Delivering high quality products

A monthly progress report should be submitted regularly to the UN-Habitat Kosovo Head of Office. A final report should be submitted at the end of the working period, detailing the activities, outputs and key observations. Both reports should be in English.

PROGRESS CONTROLS AND PAYMENT INSTALLMENTS

The fees will be paid in installments upon completion and acceptance of the outputs as specified in section Deliverables and Schedule above. A time sheet must be submitted by the individual contractor, duly approved by the UN-Habitat Kosovo Head of Office which shall serve as the basis for the payment of fees.

DUTY STATION

The work shall be performed from Prishtina/Pristina with travel to the selected municipalities. Transport to and from work will be the Data Expert's responsibility. Travel to the selected municipality will be covered by the project.

COMPETENCIES

Professionalism: Demonstrates professional competence and mastery of subject matter; – Ability to conduct data collection using various methods; - Conceptual analytical and evaluative skills to conduct independent research and analysis, including familiarity with and experience in the use of various research sources, among which electronic sources on the internet, intranet and other databases; – Is conscientious and efficient in meeting commitments, observing deadlines and achieving results. *Teamwork:* Works collaboratively with colleagues to achieve organizational goals; - Solicits input by genuinely valuing others' ideas and expertise; - Is willing to learn from others; - Places team agenda before personal agenda; - Supports and acts in accordance with final group decision, even when such decisions may not entirely reflect own position. *Planning & Organizing:* Develops clear goals that are consistent with agreed strategies; - Identifies priority activities and assignments; adjusts priorities as required; - Allocates appropriate amount of time and resources for completing work; -Uses time efficiently. *Communication:* Excellent and effective written and oral skills; ability to persuade people with varying points of view and to present information in a concise and accurate manner, ability to clearly communicate links between the organizations.

QUALIFICATIONS AND REQUIREMENTS

Education and experience

- Advanced University degree (Masters Level) in information management, data analytics, economics, statistics, public administration or a similar field;
- Minimum 7 years of experience of relevant work as data expert in carrying out complex policy and analytical work in areas related to sustainable development;

- Extensive experience in qualitative research methods, quantitative data tools, conducting surveys and leading data-driven policy level analysis;
- Good knowledge and experience working with cross-cutting issues for 2030 Agenda: Human Rights, Gender Equality and sustainability criteria;
- Good knowledge of Kosovo's data context, including at local level, is considered a strong asset;
- Good knowledge working on SDGs implementation, monitoring and reporting is considered a strong asset; and
- Ability to read, interpret and verify data from multiple formats.

Language

- English is the working language of UN-Habitat Kosovo Office; very good command of English is required – reading, writing and speaking; and
- Fluency (reading, writing and speaking) of at least one local language of Kosovo is required.
